Subject: Addendum to Field Trip Report
TDD No. F3-8306-20
FMC Baltimore
Baltimore, Maryland

Dear Mr. Byer:

Submitted herewith is an addendum to the Field Trip report for the subject project.

This report presents the priority pollutant information and data collected during the original dioxin screening study.

Considering the available information FIT III recommends that:

- o The Maryland Department of Natural Resources should address the situation, as any contamination problem is likely to be limited to on-site areas.

If you have any questions, please contact me.

Respectfully submitted by,

Michael J. Nalipinski
